Professional Summary

Enthusiastic and adaptable Computer Science Engineering student, eager to explore opportunities across diverse domains. Skilled in programming, problem-solving, and modern development tools with hands-on project experience. Passionate about learning new technologies and contributing to innovative software solutions.

Education

Dhanalakshmi Srinivasan Engineering College 2022 – 2026

BE in Computer Science and Engineering

- CGPA: 7.5/10.0

Mount Park Higher Secondary School 2020 – 2022

Higher Secondary Certificate (12th Grade)

- Percentage: 84%

Mount Park Higher Secondary School 2018 – 2020

Secondary School Certificate (10th Grade)

- Percentage: 75%

Experience

Full Stack Python Development Intern Tambaram 15 days

Retech Solution Pvt Ltd

- Gained hands-on experience in full-stack Python development
- Worked with Django framework and web development technologies

Projects

Alzheimer's Disease Prediction using Deep Learning July, 2025

- Developed the frontend of an Alzheimer's Disease Prediction web app with authentication and MRI upload
- Created a Chart.js dashboard for tracking and comparing patient prediction history over time.

LLM-Based Conversational AI for Government Services March, 2026

- Developed a RAG based conversational AI using a LLM to assist citizens with government schemes.
- The system retrieves relevant information from official scheme documents and e-Sevai guidelines and generates clear explanations.

Technical Skills

Programming Languages: Java, JavaScript, Python, SQL

Web Technologies: HTML, CSS, ReactJs

Development Tools: VS Code, Figma, Git, GitHub

Certifications

Python Workshop 2023

Top Engineers in IIT

Web Technology Course 2024

IGNOU (SWAYAM)

Achievements

- Secured Second Prize in Dev Domination at National Level Symposium, SRM Valliammai Engineering College
